

Tubular Scales

Yamato

Tubular

The Accu-Weigh® tubular scales have countless applications in homes, industry, laboratories, sports, quality control and schools. These scales are small enough to carry in your pocket for on the job use. Lightweight and rustproof, all models come with a chrome plated handle and weighing hook. All scales are calibrated with certified weights and are accurate within +/- 1 graduation. They are available with charts graduated in pounds and ounces, and kilograms and grams. An easy to use adjustment knob allows quick taring of empty containers for net weight readings.

Features

- Multiple Capacities
- Compact and Lightweight
- Rustproof
- Accurate
- Zero Setting Mechanism

Reliability you can trust
